

MORE ABOUT 4th DISTRIBUELEC 2021 EXHIBITION

Distribution is the most crucial piece of the Power jigsaw and its importance has only increased with emergence of new realities such as post Covid requirements specially at the consumption end; greater emphasis on renewables and zero carbon emissions; eMobility; grid security etc. At the same time, routine issues of revenue protection and loss prevention; capacity enhancement, O&M remain. While on one hand these are challenges they also provide a big opportunity both for suppliers of the operational equipment (OT) and digital network technology (IT)

Distribuelec brings two ends of the spectrum viz. Distribution Utilities and Consumers and the thread which connects them comprising of the equipment and technology suppliers on the common platform to reconnect in order to conduct business; share knowledge and gain information and insights into the future.

The event shall comprise of:

- **Distribuelec** – Virtual exhibition displaying power distribution equipment, technologies and services with special focus on E-Vehicle Charging Infrastructure and Grid integration of Renewables.
- **Buildelec** - BuildELEC 2021 is a concurrent virtual exhibition to showcase electrical systems for future building comprising of H3O - homes, hospitals, hotels & offices to generate, measure and manage their energy usage without compromising with comfort of living.
- **INTELECT** Conference - The theme of the 4th edition of the conference is “Electricity 5.0” which encompasses five vectors ie Green || Digital || Cyber || eMobility|| Markets. The conference will explore the role of utilities in changed policy scenario, role of prosumers, emerging markets, making power sector green and sustainable by reducing carbon footprint. In its fourth edition the Intellect 2020 is poised to be a thought provoking experience for power sector professionals specially in distribution segment
- **Buyer Seller Meet – Domestic** - Virtual 1-2-1 meetings with selected domestic buyers from Indian state and private distribution utilities; EPCs etc.
- **Reverse Buyer Seller Meet – International** - Virtual 1-2-1 meetings with selected foreign buyers from Africa, Middle East & North Africa; Latin America and CIS countries.
